Skippin' has the pedigree, with the performance and proof to go with it. Like her dam, Skippin' is a moderate size doe but very correct, both in general appearance and mammary. Her foreudder is even longer than her dam, she has a wide and very smoothly blended rear udder. She excels in dairy strength being open and flat boned, with a strong deep chest. And, she milks well too, with a high test of 20.4 lbs, and over 4300 lbs, despite travelling over 4,000 miles to Nationals! Skippin' has been a strong and consistent doe in the showing, whether showing fresh or on an extended lactation. She is a quiet, no drama type of doe, and is one of our favorites, even without the accolades. At 12 years old, Skippin' will be given a well deserved retirement.

## **'THE BROWN TRIPLETS' (+ full sister Sprocket)**

**GCH TEMPO AQUILA WEFT 7\*M**

**GCH TEMPO AQUILA WOOF 7\*M**

**GCH TEMPO AQUILA WARP 7\*M**

born 1/19 American chamoisee ID920, 919, 918

s-SG++\*B Tempo Aquila Yukon Jack

d-SGCH Tempo Aquila Free Spindle 6\*M

*Full sisters L-R Sprocket (5 yr), Weft (2y, milking through), Woof (2 yr), Warp (2 yr)*

These AI triplets are the Alpine version of our Saanen triplets. They are 2 yr olds here, now 6, they are all FS92-93 and over 3800 lb milk! They are full sisters to SGCH Sprocket FS92, 4,100 lbs milk. To have them pulled out 1<sup>st</sup>/2<sup>nd</sup>/3<sup>rd</sup> at Nationals '23 was a dream come true.

Time has taken it's toll on Spindle and her daughters. She gave us one last daughter, Rya, before leaving us in 2021. When goats are your source of income, it becomes necessary to sell good ones, sometimes even the best. Those sales included all three of the IVF full sisters born in 2021, as well as Warp. We wish their new owners success with these special does. We were saddened to lose Sprocket last year and Rya as well this spring to complications following quintuplets. That leaves just Weft and Woof, but with exciting multiple daughters coming up from all four.

Of these three, Weft is my personal favorite for her indomitable will. Fresh last year with a severe uterine tear, Weft not only survived, but went on to win National Champion and milked 4,000 lbs. We are very excited that she is confirmed bred to Brown for Feb kids! We are accepting deposits on bucks only.

We are pleased with the dairyness of this pair and the solid production they have shown. Regardless if they freshen in spring or fall, or on a milk through lactation, they are consistently our highest production does. Smooth finished her GCH in a couple weekends at 7 months fresh while Kalei has become our highest production doe. Sadly, we lost Smooth this year due to metabolic complications.

Ganache is an idiot. A loveable one that has wormed her way into my heart and is a farm favorite for her silly personality. She's got an amazing frame and wide level rump, and at 3 yrs old has matured into our biggest and most powerful Alpine. Her rear udder and teat placement are near ideal.

Grommet is a clone of her granddam Spindle. She is a smaller doe, but has a really well attached udder and strong general appearance. She's a farm favorite for her even temperament and ease of milking, and her tough grit when things happen to her that shouldn't. Grommet has enjoyed a successful year following a healthy freshening.

CeCe has been a slow developing doe that is coming into her own at just the right pace. After kidding with a single doe this year, she just hasn't been at her best, so once she finished her GCH we opted to let her sit out the rest of the year.

Twill and Tweed are Weft look-a-likes with the same dairy frame and angularity. Twill especially has the length of bone and body shape with a slightly wider rear udder while Tweed excels in teat placement. They've been a fun pair to show, trading places back and forth each class. Tweed went to Nationals, while Twill was a naughty girl the morning we loaded and had to stay home. Following failed AI attempts last fall, both were milked through this year and are now bred for March freshenings. Photos as 2 yr olds on extended lactations.

## TEMPO AQUILA MELTDOWN 8\*M

born 4/21 American chamoisee ID 168

ext 333 4221 153 109

'24 1xGCH, 2xRSGCH

Meltdown has been a work in progress but has been a hard working doe in the process. She has a wide, capacious udder with a strikingly long fore, high rear and nicely shaped teats. She is a strong bodied doe, with nice depth and width. She and her dam Ganache are favorites for their friendly, goofy personalities.

## TEMPO AQUILA TAYLORMADE BUGS \*M

born 3/22 American chamoisee ID250

Despite aborting quads 18 days early in Jan, Bugs came into milk easily with a very nice udder and milked nearly 4,000 lbs as a first freshener! Add in correct and strong general appearance and this solid young doe has quickly become a favorite. As is her very determined preemie daughter Binks, who defied the odds and lived!

## TEMPO AQUILA TIERRA 4\*M

Using old semen can be good or bad. We got the good on this one! Tierra is a moderate sized, very well balanced and extremely correct young doe with a tightly attached udder with a high, wide rear.

## TEMPO AQUILA SPINNING JENNY 8\*M

'24 5x1st, 2x2nd (to Step Right and Brioche),  
1xRSGCH (to CeCe)

Jenny is my favorite of the fall '22 kids. She's a tall girl that's structurally correct with excellent dairy strength and a particularly wide rump. Unfortunately, she suddenly aborted at 4 months following a traumatic incident. She has slowly come into milk, with consecutive test days of 4.3, 5.7, 6.7, 7.9, and 8.2 lbs! She has a super cute udder and looks to be a potential upcoming star.

## TEMPO AQUILA BRIOCHE 8\*M

proj 2667 94 74

'24 1x1st, 3x2nd (to Jenny)

Like her dam as a young doe, Brioche is a work in progress. She has developed a correct and capacious udder with a super high rear, correct teats and long fore. Now to wait for some body to go with it!

One of these is not like the others...

Hi Mom!!

## **FIRST FRESHENERS FOR SPRING 2025**

### **TEMPO AQUILA SPINNIN' FREE**

born 3/22 American chamoisee ID

Spinnin' has the correctness of her dam and the same style with more frame. Unfortunately, she has had repro issues following a reaction to a CIDR so will be a 3 yr old first freshener. She is currently confirmed pregnant at last!

## **SG+\*B TEMPO AQUILA HANDYMAN *Elite sire* 8-10 FS91 EEE, 9-11 FS92 EEE, 11-2 FS94 EEE**

born 8/13 American chamoise \*\* Handyman semen is now available from us.

At 11 years old, Handyman is as correct as ever, with excellent feet and legs and a pretty head. A promising cross with our own long and level Freehand and the high production and shapely udders from Legacy, Handyman has lived up to that and gone beyond to become one of the country's top sires. He now has multiple GCH/EX daughters, including SGCH Tempo Aquila Mazzei 6\*M, FS93 EEEE, 4000 lbs milk and '19 & '21 ADGA National Show Total Performer Award!

## **\*B TEMPO AQUILA LIVINGSTON**

born 11/18 American chamoisee

Living's last natural kid, and just a male clone of his dam. Need we say more? His first yearlings were the kind of young does that made you hold your breath and cross your fingers that nothing happened to them as they mature... Those young does are now 3 yrs old, and four have finished their GCH, three have BIS wins, and the only two scored this year were FS92 EEEE! Livingston daughters are especially noted for beautiful udders and classy general appearance, much like Living Free.

## **\*B TEMPO AQUILA BIG BROWN**

born 3/21 American chamoisee

I was hoping for more than a giant single buck with this AI, but at least he's gorgeous. His dam, Plain and Brown, aka "Peanut butter" was a show stopping doe in general appearance with an excellent udder, very reminiscent of her granddam Living Free. Brown's first kids were the fanciest we have ever had, including Paisley, our record setting Spotlight Sale doe. As they freshen, they are showing correct udders to go with that fancy general appearance. His first two milking daughters scored FS91 as FF on extended lactations, and his daughter Tweed was 1<sup>st</sup>/1<sup>st</sup> udder 2 yr old at Nationals. Brown is a beautiful correct and dairy buck with an amazing temperament and is fast becoming my favorite go to buck in breeding season.
