

OUR 2013 SPOTLIGHT SALE BUCK-

***B TEMPO AQUILA** **DANZIGER**

Danziger is a correct dairy young buck with the most outstanding performance pedigree we have ever produced! We didn't get his photos done before the UCN deadline, but he is a pretty boy with straight front legs, nicely angulated rear legs, a smooth front end, great head, and lots of dairy character. Although he is a late April kid, he's in full rut already and he says he's more than ready to go to work in your herd right now!

Even looking at his extended performance pedigree doesn't begin to show the number of high producing, Excellent Champions in his background. The prepotency is amazing, and most does have daughters and sisters that are just as incredible. The further I looked into this pedigree, the more I found. So, be prepared to take some time to savor the pictures and records, and keep checking back, as I'll keep adding more as I can!

4 GCH daughters

2011 & 2013 Oregon & Washington State Fairs Supreme Champion

Okay, most of the time we would start with his dam, but Tetra has a way of demanding to be first. We've learned it's just easier to do things her way. However, despite what she thinks, she didn't happen all by herself. She has a dam, granddam, sisters and daughters that are all (almost) as outstanding as she is. Danziger's pedigree isn't about one doe, it is filled with strong, correct, consistent does that can reproduce themselves. (Shhh, don't tell Tetra I said that!)

Tetra, 1st place aged doe at 9 years old, just before winning National Champion

ADGA National Show 3rd place 5-6 yr**

Rotini, aka 'Frosty', is a strong doe in her right, even if she wasn't a daughter of Tetra! As a FS93 EEEE, and 4,000 lbs of milk, she is a show winning combination of elite production and type. Sired by SG+*B Redwood Hills Jaeger, a son of two time National Champion, SGCH Redwood Hills RememberJambalaya *M, Frosty comes by her quality naturally, not by accident. We are very excited about Frosty's yearling daughter, Roseti, who just freshened in August. Keep those generations coming!

Tempa Aquila Roseti, 1st/1st udder milking yearling, 2013 Washington State Fair (maternal sister to Danziger)

CH TEMPO AQUILA FETTUCCINE

Owned by Ben Rupchis

Sired by +*B Tempo Aquila Yukon Jack

'13 3xGCH, 2xBOB

Rotini and Ricciolini had a third sister, GCH Tempo Aquila Rigatoni, whose records and photo are unavailable. She is the dam of SG Tempo Aquila Fusilli 6*M, owned by Scott Bice. Fusilli just qualified for Top Ten. They join Tetra's twin does, born 6/13. Tetra also is the dam of SG *B Tempo Aquila Zodiac, owned by UC Davis. A twin to Fettuccine, Zodiac has 5 fresh daughters averaging FS89, including three first fresheners, with the two second fresheners both at FS91. Look to the end of this article for a photo of Zodiac's first SGCH daughter, as well as Ricci's daughter SGCH Tempo Aquila RosaMarina 6*M.

2009 National Junior Champion

3-11 FS93 EEEE

2-07 301 4020 134 3.3% 110 2.7%

Rima is a breathtaking, incredible doe. Start with the general appearance of a National Junior Champion, then grow her up with a National Show Best Udder, put 4,000 lbs of milk in it and you have one of, if not the, hottest does in the US. Again, with sires like X-Rated (son of Reserve National Champion and Top Ten doe, Sine Qua Non) and Freelance (Elite Sire, National Show Premier Sire), Rima is no fluke, but a well bred doe living up to her potential. That she has a daughter as beautiful as Rianna is no surprise.

And just a few fun relations-

One of the best parts about doing all the work and research that goes into a Spotlight Sale kid is looking at the older animals in the pedigree, and seeing how the pedigree fits together. Then there are the other animals which are closely, but perhaps not as directly related. So, here's a few that I just had to put in-

Macaroon is the dam of Tetra, and also the dam of Praline. Both Macaroon and Praline were bred to Royal Image, producing $\frac{3}{4}$ sisters, Tetra and Tokay. Royal Image was also the sire of the twins Freely Imagined and Freelance, and at least one other FS92 doe, Feelin' Free. Feelin' had two GCH legs when she was injured as a young doe and not shown again. As a side note, she was the granddam of Living Free.

2008 National Champion

Now, going even further back, before there was Freelance, there was Free Radical. Macaroon was a daughter of GCH++*B Tempo Aquila Free Radical, as was 2006 National Champion SGCH Cherry Glen Radical Gesture. Free Spirit was the only Alpine I retained while I was in college. She was a daughter of GCH++*B Redwood Hills Sunshine Reverie. Bred AI to GCH ++*B Tempo Aquila Amor, she produced Free Love. Radical was a son of Free Love, bred back to her grandsire, Reverie. Through a different daughter bred to +*B Shahena'ko Crown Royal, Free Spirit was the foundation of our original American Alpine doe line, which resulted in Free Thinker, Freely Imagined, Freelance, and Finally Free. In addition to her son Radical, Free Love's daughters included GCH Free Breeding, who is the dam line which produced Living Free.
