'Terpe is no longer just 'Elenya's sister,' but a beautiful and productive doe in her own right. 'Terpe is a flat boned and angular doe with sharp, clean shoulders and a wide flat rump. She is also wide, deep chested and long bodied. Of all our Saanens, she has the type and style of quintessential dairy strength that I admire most. She has a strong and correct udder, not our fanciest, but has good teat placement, a correct medial and high rear udder. After a year with losses of several geriatrics, Terpe is now our oldest Saanen. At 10 yrs old with 10 freshenings, she is as strong and solid as ever, showing that truly correct general appearance will allow functionality into advanced years. Not a fan of strangers or shows, 'Terpe was only shown as a 4 yr old with 3xGCH, 1xBUOB and 2xBIS! Now she stays home and does what she does best- milk and produce great kids!

'Starry' is a 1x National Champion, 2x Reserve National Champion, has scored FS94, and is now over 20,000 lbs of milk. Big, long, level and powerful, 'Starry' is an eyecatcher. Despite her size, Starry maintains correct general structure with a level topline, correct front end and strong feet and legs. In addition to her own accolades, Starry is from a strong and consistent doe line, and is proving herself to be a brood doe as well. Her '20 son, Enforceable, (sired by Talut!) sired the first place milking yearling at the '22 Nationals (now a FS93 at 3 yr!) and her '22 daughter, GCH Etoile, (sired by WinRuler) scored FS90 EEEE as a 2 yr old on extended lactation. Starry milked through in '23, and had a difficult freshening with quads in 1/24. She came back with a first test this year over 18 lbs, and went on to win Reserve National Champion, again!

A slow developing doe, Nike was always a favorite for her structural correctness in both mammary and general appearance. Her strong and elegant presence with her length of body and level topline make her an eyecatcher both in the ring and in the barn. She's one of those does that visitors (and myself) do a double take and ask 'Who's that?' Despite a November freshening in '20, Nike finished her GCH in '21 and won her class at Nationals! It's hard to believe this sweet doe is already 6 years old. Nike's daughter, Eunique, was easily my favorite FF last year and her daughter Eureka is my favorite this year.

I like my yearlings to look and act like yearlings, while still milking well. However, that doesn't always put them at the top of the class. What a pleasant surprise when 'Stella' topped the yearling class at the '19 Nationals, over all the 'big guys'. We love her style and fancy udder, and the fact that she really looked like a yearling, while milking an effortless 9-10 lbs. After a couple years spent maturing, Stella freshened in '22 with twins, a high test of 17.4 lbs and finally took her place at the head of the line with 2xGCH, 1xBIS at her first show to finish her GCH! Stella is a B casein carrier. '24-Tragically, we lost Stella to an ovarian artery rupture after a text book normal kidding.

Maybe I should have given this girl a different name... she thinks she's 'Entitled' because she's Elenya's last daughter, and oh so fancy! Well, maybe she is entitled, and who better to give that name to??? She certainly has inherited her dam's 'me first' attitude. She is long and dairy, and easily milked 3100 lbs as a yearling, now has two 4300 lactations, and continues into extended lactations with no hesitation. With a correct and capacious udder, and extreme dairy strength, Entitled easily finished her GCH in one weekend, then followed that with a FS93! After an extended lactation, Entitled is confirmed pregnant with her 2nd set of quads. Attitude or not, this is my kind of doe!

Elexis is perhaps our strongest general appearance doe on the farm. She is an open, angular doe with plenty of strength and femininity and a wide, square rump. And plenty of milk as well, with a yearling test over 12 lbs. After a daily average over 10 lbs as a yearling, we milked Elexis through. Unfortunately three singles in a row has left her a bit stale looking. Still, she surprised us with 3xGCH at her first show in '22, followed by 1st 5-6 yr old at Nationals and FS93 in '24! Unfortunately it looks like Elexis will not kid this year. With two beautiful full sisters, Elexis will be looking for a new home.

'Sis' has fulfilled all of her early promise, and more! She is a tall, long and level doe, with elegant dairy style. She has a beautiful side profile with high rear udder, excellent teat size and placement and nicely extended foreudder. Despite kidding every year, Sis has never had a dry period, preferring to simply milk 10-12 lb/day, every day. She started as a special young doe, especially after we tragically lost her dam, and now is one of our stars.

If Enable was the only ET we had, she'd be worth it all. She combines power with style, and wraps it up with a fancy udder! Add in her dam's fun personality and she's easily a barn favorite. She's simply a clone of her dam Eleni in appearance and personality. Enable was 3xBIS at her first show last year, with over 200 milking does! She followed that with a FS93 just two days later. Unfortunately, Enable milked through last year following a false pregnancy. She freshened normally Feb 11. Her doe will stay here, her buck is available.

This is a fun pair of does. While one is a showgirl and one is production doe, they are actually quite similar in type. They've both scored EX, have finished their GCHs, and both have won BIS/BUIS.

Eroica freshened as a yearling and put everything into milk her first year, while Ella was a dry yearling. Initially Eroica was a bit smaller than the other yearlings, but was our highest producing yearling that year. With a milk through lactation, she grew and filled out and became a well balanced young doe with a knock out udder. After freshening in Dec '22, Eroica went on to milk over 4100 lbs and scored FS91 as a 3 yr old in '23, then easily finished her GCH in '24 with 2xBIS, while on her second extended lactation. Note that she has milked over 16,000 lbs in two lactations! She was 22 months fresh when scored as a 4 yr old, milking 10 lbs. Not sure about that V in Dairy Strength, as this girl epitomizes a hard working, consistent dairy goat. Fresh 2/10 with quads, we have some bucks available!

Ella has always been the fancy one, and freshened with a similar udder, just not the same production. She easily finished her GCH as a FF and has gone on to be one of our top show does, placing just behind our National Champion Emphasis. We retained their triplet brother, English Hops, and are very pleased with his first milking daughters, especially Soprano, 1st/1st udder 2 yr old at Nationals in '23 and 2nd/1st udder 3 yr old in '24!

A full sister to our beloved WinWalker, Solo is becoming more like her everyday. She's a tall doe, with correct feet and legs, a clean sharp front end and level topline, with a nice combination of strength and dairyness. She was our highest production yearling in '21, then followed with a steady extended lactation. Fresh in '24, she handily earned her GCH with 3xGCH her first two weekends out.

Ezeri is a full sister to SG++*B dR Prince Edward. Though she is still coming together in general appearance, she has a strong wide rump, and excels in dairy strength. Her very correct udder is one of our best. She was RSGCH at her first show as a FF, behind her older sister Entitled.

We couldn't be more pleased with these Elentera daughters. They have nicely shaped udders with high wide rear udders, correct medials and teat placement, and strong general appearance with Tera's trademark style. And they work hard too! Soprano freshened with a single in January, traveled 5600 miles to Nationals and back, and still milked 3800 lbs! More of a stay at home gal, Contralto easily milked over 4000 lbs.

'24 Washington State Fair 1st 2 yr old

Emara has classic dairy strength with great length of bone, angularity and openness without giving up any strength. She's putting that to good use milking a very consistent 11 lbs as a yearling out of a correct udder. We milked Emara through this year, and took her to one show as an 'extra' and she finished her GCH as a FF 15 mos fresh! She then used her incredible frame to place over Eunique at the WA State Fair. This is one to watch! Photo 2 yrs, 15 mos fresh

'24 ADGA Nationals 3rd/2nd udder 2 yr old
'24 Pat Hendrickson Memorial Show GCH

It's awfully hard to wait for this young doe! She combines our favorites into a level and balanced package and was easily GCH in her first show to earn her dry leg. Eunike freshened as a 2 yr old with a single buck, and a 'buck worthy' udder. Immature now, but correct with beautiful udder shape and teat placement, this girl is one to watch.

DRY YEARLINGS FOR SPRING 2024

TEMPO PASSA FORCE EUREKA

born 3/23 American

Anything out of Nike is special, and this dry yearling is no exception. Possibly one buck kid available from Eureka.

TEMPO PASSA ENLIGHTENED

born 3/23 American 1xGCH & BJDIS

Enlightened is a long level yearling that is the eye catcher in the pen.

TEMPO PASSA WINOWA CATCHER

born 3/23 American

Winowa crosses two of our most impactful does. Her dam is a WinCatcher daughter, while her sire is an Elenya son.

TEMPO PASSA RULING EVERIE

born 3/23 American

TEMPO PASSA RULING ESTIENNE

born 4/23 American

We didn't know that Everie and Estienne would be the last doe kids from our beloved Even and Stevie. We kept them because they were special kids to start. After losing their dams, they are even more special. One buck kid available from each.

TEMPO PASSA ESPERA

TEMPO PASSA ELIANA

born 5/23 American

Our beloved Elixir gifted us with twin does at 12 years old. One buck kid available from Eliana.

TEMPO PASSA ENGLISH ICE

born 6/23 American 1xGCH & BJDIS

Icey combines the 1st place 3 yr (dam Emphasis, FS93) and 1st place 2 yr old (Soprano, FS91, also sired by English) from the '23 Nationals into a long, level package! **'24 ADGA Nationals 2nd Junior Yearling**

Fancy New First Freshener Udders!

They're too fuzzy for body pictures, but I could resist taking these in the parlor at 12 hours full, at 2-3 weeks fresh. You can see why I'm excited, and why I'm willing to sell bucks from these young does.

SAANEN BUCKS-

+*B TEMPO PASSA ELTANTOR

born 1/18 American

'Tank' is from Elenya, AI sired by Elander. That makes Tank a paternal brother to WinCatcher and ElenTera, and a maternal brother to Prince Edward. 'Tantor' was Tarzan's elephant, so that gives an idea of Tank's size! We were pleased with the 'Elenya' general appearance of his kids, and the correct udder and high production of his first milking daughters. Now as they mature we are even more excited. They are developing into highly productive, correct and powerful does that exude strength and style. Thus far, everyone has out milked her dam at the same age, without sacrificing any soundness. He is quite possibly the best Saanen buck we have produced. Yes, they are show goats, but more importantly, they are hard working, correct, low maintenance does that can make a living in a show or dairy setting. '23 update- Tank now has two GCH daughters and 3 FS92-93 daughters and was the sire of the 1st place Sr Get at the '23 national Show!

***B TEMPO ENGLISH HOPS**

s-*B Vineyard View Hops
d- GCH Tempo Passa Evienne 10*M

English is sired by a son of Social Issues, out of one of our favorite and most consistent does. We are thrilled with his first daughters Soprano, Contralto and Alto, as well as his litter sisters CH Ella and Eroica. English is the sire of Soprano FS91, 1st/1st udder 2 yr old at the '23 Nationals, while on extended lactation!

***B TEMPO PASSA ET WINRULER**

s-*B des Ruhigestelle Element
d-SGCH des Ruhigestelle WinClimber 4*M

Ruler is a full brother to Social Climber and our beloved WinWalker. His first milking daughter is Etoile FS90, and we couldn't be more pleased.

***B TEMPO PASSA ET EPICENTER**

s-*B Cisco DRL Juliana Mint
d-SGCH des Ruhigestelle Eleni 11*M

We waited literally years to get a son of Eleni. Epicenter is from two generations of FS93, with two FS93 sisters. We absolutely love Epi's litter sister, Enable. A year of maturity has transformed her from a correct doe needing production to a BIS winning FS93!
