

FROM OUR KEEPER PEN TO YOURS-

TEMPO PASSA ENGLISH ENABLER AS2430376

American Saanen doe kid, born 2/11/2025

Looking for a Saanen kid with a solid, high performance pedigree? Look no further! Enabler comes from generations of 3,000+ lb, GCH does, with THREE GENERATIONS OF FS93 EEEE! Enabler is a fancy kid with a long, level topline, correct feet and legs, and a big personality. Whether you are looking for a show doe, a production doe, or a foundation doe to start that herd of beautiful Saanens, ENABLER is the right kid for you!

Enabler's dam-

2-11 305 3591 135 3.8% 109 3.0%
ext 610 6547 249 3.8% 201 3.1%

Enable was a much anticipated ET kid from what I consider to be the most beautiful Saanen I have owned. SGCH des-Ruhigestelle Eleni 11*M earned her GCH with 2xBIS at her first two shows as a milker. She then scored FS93 EEEE at 3 yrs, and FS92 at 4 and 5 while on extended lactations. Eleni's dam is none other than the iconic SGCH des-Ruhigestelle Elenya 10*M. Elenya's records include scoring EX 7 times, with FS93 EEE at 5, 6 and 9 yrs old! She milked 3108 35807 1151 3.2% 1003 2.8% in her lifetime, with 8 lactations of 3,000-4,000 lbs. As a true tribute to a supremely correct and productive doe, Elenya was named National Champion in 2017 at 8 years old. Enable's sire, +*B SG Cisco DRL Juliana Mint, comes from multiple National Champions himself, and has 41 daughters with a final LA average of 87, including SGCH Willow-Lane Balantine FS93EEEE.

Enabler's sire is +*B Tempo English Hops! (DNA confirmed)

5th dam-SGCH des-Ruhigestelle Elendili 8*M

6th dam-SGCH des-Ruhigestelle Elentara 7*M

Looking for consistency?

Of the 14 does in Enabler's 5 generation pedigree, 13 SCORED FS91-93!!! That's 93%! Of those, 6 scored FS93, including her first three maternal dams! Only one doe in the pedigree was not scored, and she was the dam to SGCH Ranea Social Issues, FS93 and '19 National Champion. The only doe to show up twice is SGCH des-Ruhigestelle Elenya 10*M, FS93 at 5,6 and 9 years old, and '17 National Champion.

Of those 14 does, 3 were National Champions- Cisco Mango Chard, des-Ruhigestelle Elenya and Ranea Social Issues. An amazing 71% (10) were either 1st or 2nd in milking classes at the National Show. 12 were permanent champions, and 2 lived in non-show homes.

Remember Tail Female Line (Maternal Line) Genetics? That's the influence of mitochondrial DNA being passed directly from one female to another, and occurs in the does on the bottom line of the pedigree. It greatly influences the strength and consistency of a pedigree. ***Enabler's Tail Line consists of three direct generations of FS93 does! Beyond that are three more generations of EX/GCH does, followed by proven brood does tracing in a direct line all the way back to SGCH des-Ruhigestelle ConJurEo '80 National Champion and the first EX93 EEEE Saanen in the US.***

Every doe in our herd traces back to ConJurEo, isn't it time for one to be in your herd too?
